Fulfilling Lives

Rev. Dr. Deborah Simpson's ministry (the ministry) was born out of belief in God as the immortal light, universal light energy as the divine healing source and absolute faith in the oneness of spirit. The ministry does not adopt the ideologies of any one specific religion, but embodies and emboldens the mysticism of spirit. The ministry's philosophy is that every being is a spirit of the immortal light, the ultimate source and as such, all beings together, are one light under God.

Your Ceremony, Your Way

Not all faiths are Bible based, not all spirituality exists with following the Bible's scripture and not all who believe in God are Christian or a follower of a specific religion. Acceptance of all faiths and spirituality is a unification under God. Rev. Dr. Deborah's ministry is not Bible-based, but rather is faith based, catering to the human spirit and its relation to God, the immortal light.

As a spiritualist, author and ordained minister, Rev. Dr. Deborah Simpson goes beyond the call to perform a service by creating personalized, memorable and exceptional ceremonies.

Let Dr. Simpson's thirty (30) plus years of writing experience guide you and your family through your once in a lifetime ceremony.

What Are They?

Smudging is a Shamanic ritual way to cleanse either a person, place, object or dwelling of negative energies, spirits or influences. The ceremony encompasses use of all spiritual elements, including earth, fire, water and wind and the burning of sacred plants resulting in the driving out of impure energies into the divine light of God and restoring balance, purification and a peaceful atmosphere.

Cleansings are important for maintaining a positive energy flow within your dwelling. Cleansings will clear any negative or questionable energy. Rev. Dr. Deborah performs smudging ceremonies together with prayer and universal light energy to clear negative energies.

Ceremonial Herbs

There are many different herbs Dr. Simpson uses when performing smudging ceremonies depending on her client's specific needs. The following are some more commonly used herbs in smudging ceremonies:

White Sage. This plant is used just like desert sage, however, most people prefer White Sage because the aroma is much sweeter than Desert Sage.

Cedar. After cleansing with Sage, Cedar is often used to carry negative energies on the Sage smoke to the creator. It also brings in good influences.

Sweetgrass. This herb is used after Sage to restore positive energy and good spirits after negative energies are banished by the use of Sage and Cedar.
